

# Keeping your employees safe in the workplace

Stay Safe.

[#StopTheSpread](#)

# 6 easy ways to keep your employees safe

## ➤ Digital Health Tracking

Use contactless health tracking methods such as Digital QR Code - easily scan the QR code for self-reporting

## ➤ Implement a rotation schedule

Minimise the number of employees in the office at a given time by using a rotation schedule

## ➤ Provide hand sanitisers and anti-bacterial hand wash

## ➤ Replace face-to-face meetings with video conferences

Use online platforms such as Google Hangouts or Zoom to conduct your regular meetings

## ➤ Provide options for ordering in for lunch

Hand out food vouchers or partner with caterers to provide packed lunches for your employees, this would minimise the risk of your employees being in large crowds just to buy lunch outside

## ➤ Regularly disinfect and clean common areas in the workplace

## Eat In, Stay Safe.

Dining out for lunch could expose you and your employees to unwanted risks of being in places with large crowds. The solution? *Easy, order in.*

Utilise the availability of food vouchers - take this opportunity to treat your employees to lunch as a thank you for their hard work.

## Here's how.

1. Contact us at [hello@supplycart.my](mailto:hello@supplycart.my) or whatsapp us at +60 10-233 0210
2. Decide the number of vouchers to purchase
3. We will arrange to send the individual voucher codes/gift cards to your team
4. Once the vouchers have been received, easily redeem on the app
5. Enjoy the meal!
